Question 1 pt 4

A terminal window titled 'Tilix: abueno@Cis106: ~/wildcardpractice' showing the execution of two commands. The first command, 'mkdir -p music/{jazz,rock}/{mp3files,videos,oggfiles}/new', creates a directory structure. The second command, 'tree music/', displays the resulting tree. The tree shows 'music/' as the root, with two main branches: 'jazz' and 'rock'. Each branch contains three sub-directories: 'mp3files', 'oggfiles', and 'videos'. Each of these sub-directories contains a 'new' sub-directory. The output indicates that 15 directories and 0 files were created.
