

Wildcards and Brace Expansion

Wildcards

***** (matches zero or infinite characters)

Examples:

- `ls *.txt`
- `rm file*`

? (matches only one character)

Examples:

- `ls img?.jpg`
- `cp doc?.pdf`

[] (matches any one character in brackets)

Examples:

- `ls file[1-3].txt`
- `ls report[a-c].log`

Brace Expansion

Basic Examples

- `echo {A,B,C}`
- `touch file{1..5}.txt`

Creating Directory Structures with Brace Expansion

Example 1

```
mkdir -p project/{docs,src,bin}
```

Example 2

```
mkdir -p data/{2023,2024}/{01..12}
```

Example 3

```
mkdir -p site/{html,css,js}/{dev,prod}
```
