Authentication (Database Native)

Username:

Password: ☒ Save password

[Connection variables information](#) [MariaDB](#) Connection details (name, type, ...)

Driver name: MariaDB Driver Settings Driver license

Provide some basic queries that you can run

```
ALTER TABLE EXPENSES
  ADD CONSTRAINT FK_USER
    FOREIGN KEY (USERID) REFERENCES USERS(USERID),
  ADD CONSTRAINT FK_CATEGORY
    FOREIGN KEY (CAT_ID) REFERENCES CATEGORIES(CAT_ID);

SELECT u.USERNAME, SUM(e.AMOUNT) AS TOTAL FROM USERS u
  INNER JOIN EXPENSES e ON u.USERID = e.userid
  INNER JOIN CATEGORIES c ON c.CAT_ID = e.cat_id
 GROUP BY USERNAME;

SELECT USERNAME, CATEGORIES FROM USERS u
  INNER JOIN EXPENSES e ON u.USERID = e.userid
  INNER JOIN CATEGORIES c ON c.CAT_ID = e.cat_id;
```
